Hawthorn, Victoria, Australia

To design, implement, test and support the WINconnect Reporting Layer for the internal business units of WINconnect. Supporting the CIO, IT Business Operations Manager and Program Manager through the successful delivery of operational reporting.

- Ownership of the WINconnect Reporting Layer, including Administration.
- Ensuring all reports in the Reporting are relevant, accessible and version controlled.
- Reacting to the business and IT support tickets, via Zendesk, specific to the WINconnect Reporting Layer.
- Assist, when required, to assist in the business sprints for the production of new / modification of existing WINworx reports.
- Automate, where possible, regular business reporting.
- Hardware performance reporting and security log reporting, ensuring that data remains secure at all times.
- Data visualisation through Microsoft Power BI tools and Python.
- Assist and adhere to WINconnect Data Governance Principles and Standards.
- Analyse SQL Analytics to ensure continued operations.
